2021 – Impact Report

Awarded to a female student from the Western suburbs of Melbourne who has overcome personal challenges to study at La Trobe University.

Awarded	Enrolment
Tina Huynh	Bachelor of Cybersecurity / Bachelor of Criminology

An interview with Tina...

What was your motivation to study this course? What part of your course excites you the most?

Throughout this course I was constantly motivated by learning new technology and programs every day. It is an enjoyable environment to be in and study new developing technology. With my eagerness to break gender stereotypes in the field of technology and passion to improve the online environment, I am constantly motivated to seek new adventures to learn more about cybersecurity along with implementing them in a business environment.

The pandemic has affected how we live, work and study. What have the pandemic pros and cons been for you at university this year?

Studying at home was difficult to begin with, as I did not have the technology I needed. However, with the help of the scholarship I was able to purchase the equipment I needed for university and have been able to conduct my assignments. Though it may be difficult for some students to adjust to the new studying environment, I believe studying at home has improved my grades. I have been able to concentrate better studying at home and I am able to organise my time better.

What has been your favourite memory from University this year?

My favourite memory from university this year was being able to create friends in online classes despite not being able to see each other face to face. It was a surprising experiencing and I have connected well with my classmates since then!

If you could meet with your donor, what would you say to them?

Having met with Mr Khan already this year, I did not have the opportunity to ask what motivates him to donate to students. Not everyone is generous enough to help others however, he was more than willing to help students by giving out scholarships. So, I am very curious about what drives him to donate? I am very thankful.

What do you hope to be doing the year after you graduate?

After I graduate, I hope to be working within cybersecurity departments or within a marketing department.

A little more about Tina...

The Fast Five

1. Favourite pastime/hobby? *Reading memoirs, solving puzzles, walking my pet.*

2. Favourite meal? *Tacos!*

3. Favourite movie? *All the Marvel movies.*

4. Favourite music? *R&B.*

5. 3 words to describe your year? *An eventful one!*
